SUMMARY

Frontend Developer with **3 years** of experience building scalable and user-friendly web applications. **I have commercial experience developing web applications**, including a **CMS** for a security company, an **online store**, and a CMS for a web application for managing and booking artist services. My uniqueness lies in **my extensive experience in various fields** such as international logistics, public service, and the development of environmental documentation for enterprises. This gives me a broad perspective and allows me to approach development with the **mindset of an experienced user**. My greatest value and motivation are **working in an amazing company with talented professionals** whose experience is valuable to me.

TECHNICAL SKILLS

JavaScript (ES6+)	Vue.js	Jest	REST API
TypeScript	Pinia/Vuex	Docker	GitHub/GitLab
Tailwind CSS	VueRouter	Websocket	SSR (PHP Blade)
HTML	Vuetify	Webpack	Figma
Bootstrap	Vue-i18n	Vite	

PROFESSIONAL EXPERIENCE

Front-end developer | DS xpress   **January 2024 - present time (remote, full-time)**

Project: Web application for managing and booking artist services

Developed an admin and user control panel and optimized the application for seamless performance.

- Designed and implemented a custom interactive calendar for managing schedules, including advanced features like time zone handling, time slot creation, and dynamic event updates.
- Developed a content management system (CMS) for administrators, including a drag-and-drop content constructor, enabling non-technical users to easily update website content.
- Utilized Pinia for state management to streamline data handling across components
- Utilized Jest for testing in the project to ensure the functionality and reliability of the components.
- Organized files assets in the project, ensuring efficient handling, storage, and retrieval.
- Implemented i18n (Vue-i18n) for multi-language support, ensuring seamless localization and dynamic content translation.

Technologies: Vue.js , Docker, Vite, Pinia, REST Api, Jest, Vue-18n, VueRouter

Front-end developer | Mobile Programming LLC   **November 2022 - January 2024**

Project: Web Application for a Security Agency

Development of dashboard panels for employees and managers, creation of complex custom components such as calendars, status and access systems, table and schedule generation.

- Asynchronous JavaScript (async/await, API calls)
- Performance Optimization (Lazy Loading, Code Splitting)
- Designed and implemented complex modules, such as time slot creation tools, dynamic schedule.
- Worked with forms of varying complexity, implementing custom validation, conditional logic, and dynamic field generation.
- Developed custom UI components to meet specific business requirements, ensuring high usability and a modern look.
- Collaborated with backend developers to integrate APIs and streamline data flow between the frontend and backend.
- Implemented WebSockets to enable real-time communication for the chat
- Worked extensively with server-side rendering (SSR) using Blade templates.

Project: Online Store Web Application

- Refactored legacy code to improve maintainability, performance, and readability, adhering to modern development best practices.
- Worked extensively with Vuex for state management.
- Migration from Vue 2 to Vue 3, ensuring seamless transition while maintaining functionality and optimizing components for better performance.
- Implemented advanced error handling and data caching strategies to improve performance and minimize network calls.
  Technologies: Vue.js 2/3, Docker, CSS, HTML, Webpack, Vuex, Websocket, SSR (PHP Blade)

EDUCATION

Master Degree in Public Management and Administration   **2019 - 2020 | Odesa**
Odesa State Environmental University

Bachelor degree in Engineering ecology
Odesa National Polytechnic University   **2015 - 2019 | Odesa**

ADDITIONAL EDUCATION

Front-end Pro - Hillel IT School   **Front-end Basic** - Hillel IT School

🎖 Certificate   🎖 Certificate

LANGUAGES

Ukrainian - native   English - upper intermediate   Spanish - beginner
